1. How can a pig's head influence and change the plot in *Lord of the Flies*? In *Lord of the Flies*, a group of young boys are stranded on an island with no adults or supervision. The boys on the island quickly form a power dynamic, with a few characters standing out among the rest. Among them is Jack, Simon, and Ralph. Jack quickly forms his own group, dedicated to hunting and worshipping a mysterious "beast". Jack and Simon's interaction with the beast reveal their values, and their differing roles contrast the intelligence and violence contained within the human heart. *strong sentence* *well said*

Jack's interactions with the Lord of the Flies reveal how it can symbolize the savagery, hatred, and violence in the find offensive (repetitive) human heart. In the middle of the story, Jack decides to split apart from Ralph's group to form his own. *even after voting for Ralph to be the chief*

After going hunting for pigs, they stake a pig's head in a middle of a clearing as a gift for the beast. Ralph says, "This head is for the beast. It's a gift" (157). By killing a pig, and by leaving the head on a stake as an offering for a beast, it shows how Jack is already unleashing his violence and savagery. *Later in the story,*

Ralph and Jack start fighting, and Jack even kills one of Ralph's close friends. Taking this as a victory, Jack tries to kill Ralph. "Violently, with full intention, he hurled his spear at Ralph" (181). By intentionally trying to kill Ralph, he shows how

Lord of the Flies

Simon's interactions with the Lord of the Flies demonstrate the cruelty of humans. After finding the Lord of the Flies, he hallucinates that it talks to him. "Fancy thinking the Beast was something you could hunt and kill!" (143).

This shows how he secretly realizes that the beast is not a real creature, but something that lives on inside them, violence. Meanwhile, Jack and his group have influenced people to join them. Together, they start dancing. Simon, coming back to them, "crawls out of the forest" (152). They mistake Simon for the beast and chant "Kill the beast! Cut his throat! Spill his blood! No him in!" (152), and kill him. This

Revised Work

(Pick 3-4 spots to showcase the original and the revised version. Aim for significant improvement, not just cosmetic improvements like spelling and grammar.)

ORIGINAL: By trying to kill Ralph, he shows how there is savagery, violence, and hatred in the human heart.

REVISION: Jack's relentless hunt for Ralph demonstrates how he has completely surrendered to his primal instincts, showing the malice that lies beneath his civilized facade.

ORIGINAL: This shows how he secretly realizes that the beast is not a real creature, but something that lives on inside them, violence. Meanwhile, Jack and his group have influenced people to join them. Together, they start dancing, Simon, coming back to them, "crawls out of the forest" (152).

REVISION: Even through this hallucination, Simon recognizes that the true beast is not a physical monster, but rather the cruelty hiding within the boys themselves. Driven by a desperate need to deliver the truth and save the group from their own fear, he rushes down the mountain, only to be mistaken for the monster as he "crawls out of the forest" (152) into the midst of their frenzy.

ORIGINAL: Jack and Simon's interactions with the Lord of the Flies reveals the true nature of the human; the violence, savagery, and cruelty of the human heart and mind.

REVISION: Ultimately, both Jack's and Simon's interactions with the Lord of the Flies reveal the darker truths of the human nature, and how without the restrictions of civilization, mankind's inner malice will eventually surface.
